

CONTENTS

Host Chapter, Officers and Conferences and Expositions Committee	ix
State of the Society Address, William P. Bahnfleth, 2013–2014 ASHRAE President	x
Technical Program.....	xiii

TECHNICAL PAPERS

NY-14-001	Hydraulic Modeling as a Tool to Enable Design Resiliency for Data Center Chilled-Water Systems	
	Michelle R. Contri, Member ASHRAE; and Thomas A. Davidson, Member ASHRAE	3
NY-14-002	Hydraulic Modeling as a Tool to Quantify Pump Energy Savings in Data Center Chilled-Water Systems	
	Thomas A. Davidson, Member ASHRAE; and Michelle R. Contri, Member ASHRAE	16
NY-14-003	Effect of Lubricant on the Distribution of Water between Vapor and Liquid Phases of Refrigerants (RP-1495)	
	John Senediak, Member ASHRAE	29
NY-14-004	Investigation of Two-Phase Flow Pressure Drop in Refrigeration Systems	
	S. Zahid Hussain Rizvi, Member ASHRAE	41
NY-14-005	Two-Phase VOF Model for the Refrigerant Flow through Adiabatic Capillary Tube	
	Yogesh Prajapati; Mohd Kaleem Khan, Associate Member ASHRAE; and Manabendra Pathak	60
NY-14-006	Applicability of Multilayered Phase-Change-Material Modeling in Building Simulation	
	Fabio Almeida; Wey H. Leong, Member ASHRAE; and Alan S. Fung, Member ASHRAE	68
NY-14-007	Evaluation on the Validity of the Assumptions Underlying CO ₂ -Based Demand-Controlled Ventilation by a Literature Review (RP-1547)	
	Xingbin Lin, Student Member ASHRAE; Josephine Lau, Associate Member ASHRAE; and Grenville K. Yuill, Fellow/Life Member ASHRAE	81
NY-14-008	Building Integrated Photovoltaic/Thermal Façade with Forced Ventilation and Natural Convection	
	Getu Hailu; and Alan S. Fung, Member ASHRAE	88
NY-14-009	Solar Design Days: A Tool for Passive Solar House Design	
	William O'Brien, Associate Member ASHRAE; Ted Kesik, Member ASHRAE; and Andreas Athienitis, Member ASHRAE	101
NY-14-010	Energy Master Planning Towards Net-Zero Energy Communities/Campuses	
	Alexander M. Zhivov, Member ASHRAE; Michael Case, Associate Member ASHRAE; Richard Liesen, Member ASHRAE; Jacques Kimman; and Wendy Broers	114

NY-14-011	A Computational Framework for Low-Energy Community Analysis and Optimization Michael Case, Associate Member ASHRAE; Richard J. Liesen, Member ASHRAE; Alexander Zhivov, Member ASHRAE; Matthew Swanson; Benjamin Barnes, Associate Member ASHRAE; and James Stinson	130
NY-14-012	Community-Scale Energy Supply and Distribution Optimization Using Mixed-Integer Linear Programming Matthew Swanson; Benjamin Barnes, Associate Member ASHRAE; Richard J. Liesen, Member ASHRAE; Michael Case, Associate Member ASHRAE; and Alexander Zhivov, Member ASHRAE	145
NY-14-013	Energy Efficiency and Cost Assessment of Humidity Control Options for Residential Buildings (RP-1449) Hugh I. Henderson, Jr, Member ASHRAE; and Armin Rudd, Member ASHRAE	163
NY-14-014	Theoretical Estimation of the Performance of a Photovoltaic-Thermal Collector (PV/T) System Coupled with a Heat Pump in a Sustainable House in Toronto R.S. Kamel, Student Member ASHRAE; and A.S. Fung, Member ASHRAE	179
NY-14-015	Experimental Evaluation of a Multipurpose Heat Pump for Space Heating and Domestic Hot-Water Draw Tim Kingston, Yongfang Zhong, and Daniel Suchorabski	192
NY-14-016	From U.S. Army Installation to Zero Energy Community: The B&O Bad Aibling Park Looks to the Future Alfred Kerschberger, and Ernst Boehm	200
NY-14-017	Energy Optimization for Fort Carson Combat Aviation Brigade Complex A. Zhivov, Member ASHRAE; D. Herron, Member ASHRAE; R.J. Liesen, Member ASHRAE; K. Budde; S. Richter; S. Ochse; S. Schad; L. Fiedler, Associate Member ASHRAE; P. Steitz; V. Guthrie; S. Turner; and N. Shepherd	208
NY-14-018	Multi-Objective Optimal Design of a Near Net Zero Energy Solar House Scott Bucking, Student Member ASHRAE; Andreas Athienitis, Member ASHRAE; and Radu Zmeureanu, Member ASHRAE.....	224
NY-14-019	An Integrated Heat Transfer Attic and Multiroom Thermal Building Model Ahmed Cherif Megri; and Yao Yu, Student Member ASHRAE	236
NY-14-020	Optimal Design and Operation of Ice Thermal Storage System for a Typical Chilled Water Plant Nabil Nassif, Member ASHRAE; Christopher Hall; and Danté Freeland	248
NY-14-021	A Study on Proximal Region of Low Reynolds Confluent Jets—Part 1: Evaluation of Turbulence Models in Prediction of Inlet Boundary Conditions Shahriar Ghahremanian, Student Member ASHRAE; and Bahram Moshfegh	256
NY-14-022	A Study on Proximal Region of Low Reynolds Confluent Jets—Part 2: Numerical Prediction of the Flow Field Shahriar Ghahremanian, Student Member ASHRAE; and Bahram Moshfegh	271
NY-14-023	A Design Approach for Preventing and Solving Combustion Oscillation Problems (RP-1517) Limin Zhou, Student Member ASHRAE; David W. Herrin, Associate Member ASHRAE; and Tianxiang Li	286

NY-14-024	Aerogel Thermal Insulation—Technology Review and Cost Study for Building Enclosure Applications Nitin Shukla; Ali Fallahi, Associate Member ASHRAE; and Jan Kosny, Member ASHRAE	294
NY-14-025	An Actuarial Approach to Retrofit Savings in Buildings Kris Subbarao; Pavel Etingov; and T. Agami Reddy, Fellow ASHRAE	308
NY-14-026	Assessment of Airborne Endotoxin at the Air Exhaust of Swine and Poultry Confinement Buildings Xufei Yang; Xinlei Wang, Member ASHRAE; and Yuanhui Zhang, Fellow ASHRAE	316
NY-14-027	Characteristics and Enhancement of a Disk Type Humidifier with Hydrophilic Rough Surface Seongjin Yun, Youngjin Seo, and Byungryul Min	326
NY-14-028	Demonstration with Energy Assessments of Thermochromic Window Systems Xiaohui Zhou, Member ASHRAE; and Robert Milbrandt, Associate Member ASHRAE	330
NY-14-029	Development of 3012 IWE2 Weather Files for International Locations (RP-1477) Yu Joe Huang, Member ASHRAE; Fenxian Su; Donghyun Seo; and Moncef Krarti, Member ASHRAE	340
NY-14-030	Withdrawn	
NY-14-031	Energy Prediction of Electric Floor Radiation Systems Using a New Integrated Modeling Approach Ahmed Cherif Megri; and Yao Yu, Student Member ASHRAE	356
NY-14-032	How Do Pressure Drop, Efficiency, Weight Gain, and Loaded Dust Composition Change Throughout Filter Lifetime? (RP-1360) Kathleen Owen, Member ASHRAE; Roger Pope; and James Hanley, Member ASHRAE	366
NY-13-033	Withdrawn	
NY-14-034	Efficiency Evaluation of Proportional Pressure Control for Centrifugal Pumps with Variable-Speed Motors Egils Dzelzitis, Member ASHRAE; and Deniss Pilscikovs	382
NY-14-035	Optimal Control of Energy Recovery Ventilators During Cooling Season Mohammad Rasouli, Affiliate Member ASHRAE; Gaoming Ge; Carey J. Simonson, Member ASHRAE; and Robert W. Besant, Fellow/Life Member ASHRAE	386
NY-14-036	Predicting Annual Energy Use in Buildings Using Short-Term Monitoring: The Dry-Bulb Temperature Analysis (DBTA) Method (RP-1404) Vipul Singh, Associate Member ASHRAE; T. Agami Reddy, Fellow ASHRAE; and Bass Abushakra, Member ASHRAE	397
NY-14-037	R-410A Maldistribution Impact on the Performance of Microchannel Evaporator Yang Zou, Student Member ASHRAE; Hanfei Tuo, Student Member ASHRAE; and Pega S. Hrnjak, Fellow ASHRAE	406

NY-14-038	Reducing Energy Consumption in Grocery Stores: Evaluation of Energy Efficiency Measures Jaya Mukhopadhyay, Student Member ASHRAE; and Jeff Haberl, Fellow ASHRAE	416
NY-14-039	Study of Input Parameters for Risk Assessment of 2L Flammable Refrigerants in Residential Air-Conditioning and Commercial Refrigeration Applications (RP-1580) William Goetzler, Member ASHRAE; Javier Burgos, Associate Member ASHRAE; and Peter J. Loftus	437
NY-14-040	The Formation and Runoff of Condensate on a Vertical Glass Surface Vivek Kansal; John L. Wright, Member ASHRAE; and Michael R. Collins, Member ASHRAE	449
NY-14-041	Withdrawn	
NY-14-042	Quantification of Ventilation Effectiveness for Air Quality Control in Animal Buildings Sheryll B. Jerez; Xinlei Wang, Member ASHRAE; Yuanhui Zhang, Fellow ASHRAE	460
NY-14-043	Heat and Moisture Production of Modern Swine (RP-1475) Tami M. Brown-Brandl, Associate Member ASHRAE; Morgan D. Hayes; Hongwei Xin; John A. Nienaber; Hong Li; Roger A. Eigenberg; John P. Stinn; and Timothy Shepherd	469
NY-14-044	An Optimized Electrostatic Precipitator for Air Cleaning of Particulate Emissions from Poultry Facilities Roderick Manuzon; Lingying Zhao, Member ASHRAE; Christopher Gecik	490
Index of Technical Papers, Volume 120, Part 1		504
