

2023–24 **HONOR ROLL**

ASHRAE'S INVESTORS: **MAKING A DIFFERENCE**

Dear ASHRAE Members and Friends,

As we close another remarkable year for ASHRAE, we can all take pride in the many accomplishments we've achieved together in support of our Society.

This year, ASHRAE President Ginger Scoggins introduced the 2023–24 theme, “Challenge Accepted: Tackling the Climate Crisis,” empowering industry professionals to address the pressing challenges we face today. Our members and industry partners have been instrumental in supporting this cause through their generous contributions of time, expertise, and financial gifts.

I'm also delighted to congratulate the RP Committee on the success of another outstanding RP Campaign. In 2023–24, nearly \$2 million of the \$2.68 million raised was specifically allocated to ASHRAE's unique Research program. This generosity from our donors enables ASHRAE to continue its leadership as a global authority in HVAC&R research. The remaining funds raised during the RP Campaign will support scholarships, the ASHRAE Learning Institute, Young Engineers in ASHRAE, and other essential programs.

Yet, our work is far from finished. ASHRAE's success hinges on the contributions of individuals, companies, and chapters. Our shared mission and vision for Society thrive because of the unwavering support from each member. Alongside financial contributions, thousands of ASHRAE volunteers have dedicated their time and expertise to making our mission and vision a reality.

On behalf of the Development Committee and the entire ASHRAE community, thank you for your continued support. We look forward to collaborating in the year ahead to further strengthen and advance our Society and industry.

Sincerely,

Tiffany Bates Abruzzo
Development Committee Chair

ASHRAE RP 2023–24 CAMPAIGN RESULTS

It has been an honor...

It has been an honor to serve as Chair for the 2023–24 campaign year. The success of the RP Committee, a grassroots effort driven by teamwork and shared passion, is a testament to the incredible volunteers and members I've had the privilege to work with.

This year, donors to ASHRAE RP played a vital role in supporting our technical research program, educational initiatives, scholarships, and the Young Engineers in ASHRAE (YEA) program. These achievements are only possible because of generous supporters like you.

Thanks to your contributions, the RP Annual Campaign reached several significant milestones:

- **A total of \$2,688,068 was raised.**
- **\$190,394 was specifically directed to ASHRAE Scholarships.**
- **\$1,127,679 was contributed by ASHRAE Chapters, Sections, and Regions.**

These accomplishments were made possible by over 200 RP volunteers, from Society officers and regional vice chairs to chapter-level chairs and volunteers who organized fundraisers, research nights, and technical seminars. Their dedication and hard work have been the driving force behind this campaign's success. Leading such an extraordinary team has been a highlight of my time with ASHRAE.

I also want to extend my gratitude to the many companies that not only provide financial support but also encourage their employees to volunteer during business hours. Their commitment is instrumental in ASHRAE's continued success.

The following pages list the RP investors by Region and Chapter who have made significant financial commitments during the 2023–24 fiscal year. While we strive for accuracy, I apologize for any omissions or errors and ask that you notify the RP staff for future corrections.

In addition to those listed, I want to sincerely thank every one of the 1,000+ investors in this year's RP campaign. Though space limits us from naming each one, please know that every contribution makes a meaningful impact.

With another successful year behind us, the RP Committee looks forward to even greater achievements in future campaigns.

Aakash Patel
Chair, Research Promotion Committee 2023–24

Many contributions are received by ASHRAE to honor deceased members, business associates and friends. These contributions not only honor these members and associates, but they also support the Society's mission to advance the arts and sciences of the HVAC&R industry. Those being honored are listed in bold type and the memorial contributors are listed below each honoree.
